Dear Queensland Government Planning Minister,

I am saddened to hear that our Aboriginal and Torres Strait Islander traditional owners have been severely ignored when important decisions were being made concerning mining leases and long term water rights.

I find this corruption despicable and not in the long term interest or benefit of Australia and australians.

Lets get our priorities in order and make it mandatory that our first nations people be consulted and included in our teams of decision makers on all important matters in this country. The collective wisdom will help decide the best outcome for the long term future and environmental protection of our wonderful and precious land and sea areas Kind Regards Hilary Harland
