Message:

Lesley would like to have her say and it strenuously noted that the:

1. Wangan and Jagalingou people were not consulted and left out of Adani Mines discussions. Adani should have to have discussions with the traditional owners as well, not just those on the Native title.
2. Adani was mining in an area with alot of Artificats. Jagalingou did not notify the government of this and they were just ignored by the government. Jagalingou are desperate to be consulted as there are a lot of artificats in the area. They want to some kind of power when things of their cultural significance are being destroyed.
3. When previous discussion were made between the aboriginal people and Adani there was no representation of the Wangan and Jagalingou people. There needs to be something put in place to ensure that the appropriate people represent the aboriginal people in regard to that specific area. As some of the people that were in the discussion with Adani (for example) were people that, was felt, were not a good representation of the traditional owners.

Could Lesley please be contacted to have it confirmed that "Her say" has been heard and would be considered.
Thank you
